Profile

I am a **Software Engineer** with experience in **front-end development using Angular** for enterprise-scale applications. I work on enhancing UI modules, supporting security and compliance updates, and collaborating with cross-functional teams to deliver high-quality solutions. I proactively keep my skills updated by practicing modern Angular versions.

Previously, I contributed to UI and performance improvements at **Nuarch Fintech** and **Gloify**, and gained strong foundational experience at **Vidhikara Technology** building interactive web applications.

My skill set includes **Angular, TypeScript, JavaScript, Bootstrap, Material UI, HTML, CSS**, with backend exposure to **C#.NET and MySQL**.

Key skills

Angular, C# .Net, Mysql, Typescript, jQuery, Bootstrap

Work experience

Application Developer
IBM India Pvt. Ltd., India | May 2025 - Present

As a skilled Front End Developer specializing in the Angular framework, I have a proven track record of creating dynamic and responsive web applications that deliver exceptional user experiences. My expertise in Angular enables me to build scalable and maintainable front-end solutions that meet the diverse needs of clients and stakeholders.

Angular Developer
Nuarch Fintech, India | Oct 2023 - Apr 2025

Revamped the entire company website using Angular, significantly improving user experience and performance. Implemented SEO best practices, including meta tags, structured data, and keyword optimization, resulting in improved search engine rankings. Designed and developed a fully responsive UI that adapts seamlessly across devices, enhancing accessibility and usability. Conducted regular SEO audits to identify and resolve technical issues, optimize site structure, and ensure ongoing compliance with search engine guidelines.

Angular Developer
Gloify, India | May 2022 - Oct 2023

Developed scalable and high-performance applications using **Angular and**

TypeScript . Contributed to UI/UX improvements that enhanced application responsiveness and user engagement. Supported junior developers through knowledge sharing and peer code reviews. Collaborated with stakeholders to gather business requirements and translate them into effective UI solutions, ensuring timely and quality delivery.

Junior Software Developer

Vidhikara, India | Jul 2021 - Apr 2022

Assisted in front-end development using **Angular and Bootstrap** to build responsive user interfaces. Learned and applied **C# and MySQL** in a real-world project environment. Built interactive web applications using **C# .NET and MySQL**, improving data handling and overall application efficiency. Developed dynamic UI components to enhance user interaction. Designed and maintained **MySQL databases** to support scalable and reliable application performance.

Assignment history

Portal UI Developer

SBI | May 2025 - Jan 2026

The project involves development and maintenance of a web-based enterprise portal used for secure access to business services. The application is built using **AngularJS** for the front-end and integrates with backend systems through a **Java-based Portal Adapter**. The project follows strict security, performance, and compliance standards, including resolution of **CSR (Cyber Security Review) observations**.

Contribution

• Fixed UI issues and improved usability.
• Assisted in resolving **CSR security observations** in Java components with senior guidance.
• Self-learned and practiced **Angular 20** for future readiness.
